Editorial

This catalog is my third auction sale catalog in the United States, and I am grateful for your kind cooperation in making my business a success and keeping the name of Schulman active.

I am sending this catalog to many collectors who have never received my publications before. However, if they are pleased and want to be kept on my regular mailing list, please fill out the enclosed blank.

My father in Amsterdam, Netherlands, is sorry that the war does not enable him to contact his numerous friends in the United States, but when peace is declared he will certainly get in touch with all of you again.

The main office in the Netherlands keeps operating as normally as possible under his guidance.

My father is well and sends you his greetings!

With many thanks, I close,

Numismatically yours,

HANS M. F. SCHULMAN.

Public Sale

Although I received quite a few requests to hold a mail sale, I could not decide myself in favor of this. So there will be again a PUBLIC AUCTION under the able supervision of auctioneer O. Rundle Gilbert, at the popular Shelton Hotel. I have a feeling that a mail sale does not give the collector enough security. He does not know what happens but he certainly does at any public sale. As usual the auctioneer will announce the unsold items.

CONDITIONS OF SALE

1. All bids to be per LOT (not per piece).
2. The sale will be conducted by HANS M. F. SCHULMAN, expert on foreign coins. Your bids by mail will be executed as if you were personally present, and will receive the same service as those made in person.
3. The sale will be a public sale, under the supervision of auctioneer O. Rundle Gilbert.
4. The lots will be on exhibition 8 days before the sale, but **ONLY BY APPOINTMENT**. Teleph. MU. 2-4217, and absolutely not before that time.
5. Bidders unknown to us are asked for references, preferably from dealers with whom they have had past dealings.
6. Coins are to be paid immediately upon receipt of merchandise. It is understood that prompt settlement is expected and will be insisted upon.
7. The authenticity of the coins is guaranteed, but all claims must be made within **8** days after the coins have been received. It is extremely difficult for us to accept returns after that period as we will have settled all auction accounts and have closed our books. Your very kind cooperation is requested.
8. Coins are as described. The cataloguer has endeavored to give as much information about the coins in this sale as possible.
9. **No commission will be charged but a handling charge of 15c for orders under \$2.50 and of 25c for orders above \$2.50 will be charged to every order.**
10. The highest bidder will be the buyer. In case of dispute, the right is reserved to resell the lot in question.

Description

I have endeavored to give more detailed description than in any other catalog of this type. Moreover I have felt that the description should be particularly clear for the less experienced collectors and I hope to have succeeded.

Where more information and book references are needed, do not hesitate to write me.

Estimates

The cataloguer will gladly furnish estimates of the value of any lot in the sale and will also give advice about bidding.

Price List

A price list of the prices realized will be published three weeks after the sale. Price 50 cts. (The price list will also mention unsold items.)

Proceedings

It is well-known to us and to the collectors that any sale is a matter of confidence between the two named parties.

I will further the interests of my bidders to the smallest detail and advise you to entrust me with your full confidence.

The name **Schulman** is well-known and is widely appreciated through the activities of my father and will be proof enough for the most honest and helpful dealings.

So, if you were bidding in our first public sales, do not hesitate to do so again.

Very Important Notice

Bidders from my first sale will know that most coins were sold **UNDER** their bids and that in many instances considerable amounts **under** their bids were saved. It should be said that collectors can send in high bids without the slightest fear that the coins will be purchased for these amounts, if possible.

INDEX

No index in this sale, but there are several notes in the catalog that will guide the collector as to the series in which he is particularly interested.

To Our South American Bidders

If your bid sheets arrive too late, I will endeavor to find coins similar or exactly like those which were sold in the auction. I will have the cooperation of all New York dealers in this matter. Therefore, please do not hesitate to bid as usual.

Schedule

The Auction starts at 12:30 p. m. sharp—Lots 1 until 669 sold.

After Lot 669, interval of 15 minutes.

2.45 p. m., Lot 670 sold, until end.

About 4:00 p. m., end of sale.

Please be in time for important gold coins. Note: In the catalog at certain pages we gave the approximate time when these coins will be sold.

Consignments

For the convenience of its readers the cataloguer has combined some consignments to complete collections. This will enable the collector to locate the pieces he is interested in, in a much more efficient way.

Eight Great Important Gold Coins

Part of Consignment Charles C. Phillips, Chicago, Ill.

NOTE: As in our last sale I am happy to offer four great rarities from the same collection as the gold coins in last sale. The pieces are highly desirable and I hope these pieces will receive as many interesting bids as the large gold in the last sale.

HOLY ROMAN EMPIRE

- 1 **Maximilian II.** (1564-1576) Hybrid 8 ducats 1577 with accolated busts of Maximilian and wife to left, in splendid gala dress. Rev. Beautiful bust in armor of Emperor Ferdinand I to right. Remarkable Renaissance work. See Donebauer 1224. Wellenheim 6906. $34\frac{1}{2}$ millimeter. 28 grams. Only one other 8 ducat piece came up in sales in many years. Extremely rare. VF-EF.

ITALY

- 2 **CASALE.** Ferdinando Gonzaga of Mantua 1612-1626. Quadrupla d'oro or 4 ducats. Bust to r. Rev. Arms of Mantua and Montferrat. Not in any of the collections as Ruchat, Gnechi etc. EF. A great rarity (worth \$95-\$100) Sold in Jenks' sale, where prices were very low \$70.
- 3 **SAVOY.** Charles Emmanuel II and his mother Maria Christina, Regent 1638-1648. Quadrupla or 4 ducats 1641. Accolated busts of Duchess and her little son to r. The old hammered coinage; therefore struck in a crude way. A very desirable and interesting piece. Rare. F. (Sells generally for not less than \$75.)

GERMAN ECCLESIASTICAL RULERS

- 4 **SALZBURG.** Sede Vacante. Broad 20 ducats 1772. Standing St. Rupert encircled by numerous shields of the different dioceses. Rev. Standing St. Stephan, encircled as before. This beautiful piece is one of the most remarkable gold coins I have seen lately. Perfect brill. proof. Zeller #2. (\$260.)
- 5 **HAMBURG.** Half portugaloser or 5 ducat 1679 struck to "wish for peace" after the devastating wars in Germany. Couple in clouds kissing each other, while fallen soldiers lie in grass. Rev. God descending from clouds and destroying arms. In German "We praise God who loves us and who avoids war with us, and gives us peace." A marvelous large piece and rare.

ORIENT

- 6 **TRAVANCORE** (India) Large cup shaped Ramatanka (1600) Goddess Sita and Rama who is seated with numerous other Gods surrounding him. Rev. Ornamental design. Hanuman in center (50 millimeter.) These large gold coins are of great rarity and are extremely interesting. They are weakly struck and the design is crude. Gold value \$45. Fine. (Listed in a price-list for \$160.)

WEST INDIES

- 7 **GADELOUPE.** (French W. Indies) Brazilian half Dobra 1786 of 6400 Reis with busts of Maria and Peter to r. COUNTERSTAMPED CROWNED "G" in oval stamps and 82.10 (for 82 Livres, 10 sous colonial silver) in rectangular stamp. See WR. "South American Gold" page 37. Of the greatest rarity. EF. (Worth \$100.)

FRENCH PLATINUM RARITY

- 8 **FRANCE.** Napoleon III. 20 francs 1865 struck in platinum and gilded later at a time when platinum was worth less than gold. These pieces were then gilded and slipped into circulation among the regular pieces. However when platinum became of much greater value than gold, these pieces were hoarded by those who found them and mostly melted up. A few pieces in pure platinum and a few gilt ones are still known today and of the greatest interest to collectors. (In my last sale a similar piece of Spain, less rare, brought \$41.25) VF.

Seven Numismatic Rarities

Attributed to Canada or West Indies. The most interesting British Colonial coins ever offered for sale.

CANADA (?) WEST INDIES (?)

The following coins belonged to one of the most famous numismatic collections in the U. S. A. The owner who has donated or sold most of his marvelous "cut and counterstamp" collection did not want to part with seven of his greatest rarities. We are fortunate in being able to include these pieces in this catalog and are glad if any of our collectors are able to supply more information.

Mr. L. A. Renaud, curator of the Chateau de Ramezay in Montreal and Canada's foremost numismatist is doubtful if these pieces belong to Canadian numismatics, as no records are known.

However important European numismatists have often attributed these to Canada.

My father in Amsterdam specifically mentioned the coins counterstamped "V" as belonging to the Prince Edward Islands, whereas those with GR to general British Colonies. For those unfamiliar with these items we point out that there is no question of counterfeits. The coins come up from time to time and are of the GREATEST RARITY. Leroux mentions a stamp PEI. VR. as for "Prince Edward Island Victoria Reign."

Prices of \$200-\$300 per piece have been paid for some of them—Of course these values have largely deflated now. We find one specimen listed by Wayte Raymond "Dollars of the Americas" on page 20-21 under No. 3, where the coin with GR and ORD is listed under Canada.

A suggestion has been made by Mr. J. D. Ferguson that some of these coins were made for Vancouver Island. This could explain the large "V".

516 **RARITY 1.** Mexican 8 Reales 1772 counterstamped on top: GR and a large 5 in center. The ordinance of May 1765 made the acceptance of the Spanish dollar compulsory in Canada and this piece might be struck in connection with this ordinance. (We also might say that it is a crown of 5 Shillings for JAMAICA.) Extremely rare. Very fine.

517 **RARITY 2.** Mexican 8 Reales or peso 1770 counterstamped GR—5—ORD. Exactly like the coin illustrated in Wayte Raymond's book on page 20. Extremely fine. A great rarity. (counterstamped=Georgii Regis 5 anni ordinatione—this is certainly the ordinance of 1765).

Lot 518

518 **RARITY 3.** Mexican 8 Reales 1768 counterstamped as before GR—5—ORD. but crossed through. Apparently struck for Jamaica where the above mentioned ordinance was not of value. (?) Unpublished. Supposedly unique. Absolutely genuine. Of excessive rarity. Very fine. **SEE PLATE.**

519 **RARITY 4.** French 5 francs 1835 of Louis Philippe counterstamped twice, crowned V in oval shaped stamps. Supposed Prince Edward Island. "V" being probably for "5." This particular piece never seen before. Counterstamped perfectly genuine. Most interesting and of the highest rarity.

- 520 **RARITY 5.** French ecu or crown 1726 of Louis XV ctspd with one oval shape stamp "crowned V." Fine and excessively rare.
- 521 **RARITY 6.** 1 franc 1831 cstd. as before. Fine and extremely rare.

Lot 522

- 522 **RARITY 7.** Peruvian Lima peso 1793. Ctspd. with head of George III (as is usual for Jamaica) and oval shaped stamp "crowned V." Both stamps in center of coin. Stamps and coin extremely fine. Probably unique and of the greatest interest. **SEE PLATE.**
